

Dear Chaperones,

Thank you, Thank you, Thank you, THANK YOU for coming with us today! I wanted to write down certain details that will help move things along as smoothly as possible.

First, be sure to exchange cell phone #'s with each other. Also, please text us (Meghan and Loni) your Cell #'s with your names included in the message (our #'s are at the bottom of this page).

When we get to Standley Lake High School, have the students wait on the busses until we go inside and find out where to send them. When going into the school, students will bring their instruments and music. **-Dan Obluda, Chris Stuberg, and Brad Hixson will supervise the students getting their instruments off the truck.**

The **orchestra** will be performing first. While they are warming up, the **band** students will be waiting quietly in the cafeteria of the High School (there IS a possibility that we may be able to watch another group perform during this time). At 7:40 AM, the **orchestra** will take their instruments and proceed to the Warm-Up area. While groups are warming-up, chaperones you may watch. Once it is time to perform, chaperones please go to the auditorium to enjoy the performances :o)

When the **orchestra** is done performing, **Orchestra** Chaperones will take students back to the cafeteria to pack up their instruments. Afterwards, the **Orchestra** students should go back inside to watch the next performing group perform. PLEASE make sure students are respectful while watching other performances.

When the **band** is done performing, **Band** Chaperones will take students back to the cafeteria to pack up their instruments. Afterwards, the **Band** students should go back inside to watch the next performing group perform. PLEASE make sure students are respectful while watching other performances.

**When we get to the park, we will review rules and reminders, hand out tickets, and walk the kids over in an orderly fashion.** Please do NOT let the students run to the park (they always try). The "check-point" at the park is near the Ferris Wheel. The main goal is to have someone available at this location in case the students need something or in case of an emergency. This is where we will always meet as a group while in the park!
